A Rich Strike in Big Cottonwood-The Cactus and Comet Meeting-Mining Mites.

The following letter from the chamber of commerce has been received at THE HER-ALD office. The communication requests that all mine owners and others who are interested in Utah should exert themselves immediately and energetically to assist in making a proper showing before the mining committee which will reach bere within a few weeks. The letter reads as

within a few weeks. The letter reads as follows:

My Drar Sin—The mining committee of the World's Columbian exposition will meet in Chicago on November 25, and will from there visit different states and territories in the union. They will reach Salt Lake city some time in the first half of December, about the loth to the 18th. They are coming here upon the urgent solicitation of Utah's commission to the World's fair and will hold a session in Salt Lake city. The leading mining camps of the territory. Imaging the which they expect to visit several of the leading mining camps of the territory. Imaging the privilege which will be granted Utah at the World's fair will depend more largely upon the impression made upon this committee, it is absolutely necessary that they be given as full and favorable information regarding Utah and her resources as is possible. In order that there may be no failure in this respect the Salt Lake chamber of commerce has been requested by Mr. P. H. Lannan, World's Fair commissioner for Utah, to procure, in the best possible form, all of the information which can be obtained concerning Utah, her mineral resources and possibilities, as well as her agricultural and other advantages. Although this committee is, estensibly, only a mining committee, its impressions on other subjects permaining to Utah and her wants, will prevail with the general committees. It is therefore imperative that every person in Utah, exert himself immediately and carrectleally to assist in making a proper showing before this committee. The Salt Lake chamber of commerce has, therefore, this general request to make of all mines, prospects, quarries and owners of other mineral deposits in Utah regular cross or other products as will properly represent their properties. These samples must be necessary of other mineral deposits in Utah require considerable trouble, and expense on the part of the chamber of commerce and it by understood that this organization will not be able to bear the additional expense of paying freig

A Strike in Blg Cottonwood.

What is said to be one of the richest strikes ever made in Big Cottonwoon cañon is in the Gypsy Blair, located about one-half mile from the head of Day's fork. The miners came down yesterday with some yery rich-looking samples which are now being assayed and are expected to go sev-year hundred deligants that the The least being assayed and are expected to go several hundred dollars to the ton. The last sample assayed ran \$400 in silver and 40 per cent. lead. The shart is now down 150 feet and a good three foot vein has been struck. The ledge can be traced for more than a thousand feet along the surface.

A Good Word for Utah.

In speaking of Utah and her mines, the Sunday Dispatch, of Philadelphia, Penn., in its last issue contains the following comparative statement, which speaks well for Utah's mining industries: "Utah, with Otan's mining industries: "Utah, with five mines as against eleven for Colorado, has paid nearly three times as much in divfive mines as against eleven for Colorado, has paid nearly three times as much in dividends as has Colorado since January I. The figures stand thusly: Utah, \$1,600,000: Colorado, \$534,000. This does not include the output of such mines as the Bullion-Beck, the Eureka-Hill and other close corporation companies. The B. Gould Tninks the Flurry About Over.

New York Nov. 15.—In an interview with a Tribune reporter this afternoon, Jay Gould expressed the opinion that flurrying in stocks was about over and looked for steady improvement soon. He knew little about the Baring troubles, but did not think they were seriously affected.

The London Times on the Situation London, Nov. 15. -The Times, referring to the financial situation, says: The city has passed through a crisis verging upon a panic. The worst is over. The Bank of iongland, by its prompt action, has averted a lamentable catastrophe by providing vast reinforcements to its stock of gol'l to meet exceptional demands. It also prevented the downfall of one of the greatest and most respected English financial houses, which if it had fallen, would have brought down in its widespread ruin a large number of smaller but important firms.

LONDON, Nov. 15 .- The banking house referred to by the Times is Baring Bros. & Co. They have been helped through by the Bank of England, Rothschilds, and several London joint stock banks who made large advances to the firm. Baring Bros.' position is now believed to be secure.
